PLANNING APPLICATION

12/00877/FULL Proposed stable/field shelter within existing paddock, The Croft, School Road, Trysull

Objections to this application – the proposed stable and field shelter are set too far back into the paddock and there are serious concerns regarding the proposed lengthy driveway/track to serve the field shelter and stables which will result in extensive driveway construction in the green belt. The proposed location of the driveway immediately abuts the original drive between the Croft and Croft Cottage which leads from the application site to School Road. Any proposed use of that driveway would be a highway hazard. Refer Planners to previous applications for the Croft site for reasons given for the new access on the northern boundary of the Croft.
